## Review Creators

Lyttelton Harbour Review is a 100% voluntary community newsletter initiative developed after the February 2011 earthquake. It's a Lyttelton Harbour Information Centre initiative produced by Chairperson Wendy Everingham and Committee Member Jenny-Lee Love.

The objective of the Lyttelton Harbour Review is to help keep local residents informed with what is going on in the wider Lyttelton Harbour community. Of course the success of the Lyttelton Harbour Review could not be possible without the ongoing support and enthusiasm from the wider community.

A big thank you goes out to everyone who sends information; is willing to be interviewed or lets us know what might be happening in the neighbourhood. The Lyttelton Harbour Review project would not be possible without you all.

If you have an event, topic, sport announcement, fundraiser or cause that you would like to share with the harbour community, then Wendy or Jenny-Lee would love to hear from you:

## A Day at Anderson's Farm

### Charteris Bay Diamond Harbour circa 1939

This picture is done from an original black and white photo of Mr Anderson's home and farm at Charteris Bay. It was taken some time in the mid 1920's. In those days it was loosely called Diamond Harbour.

I remember Mr Anderson's farm in the 1930's. At night time on a clear night I would observe the only light from the other side of the harbour. It was a dim light from a kerosene lantern, shining from the window. It was the only building and home over there and it had so much vacant land surrounding it. There was no electricity and no communications. A flag was possibly hoisted up a pole that would let others now in the port if any help was needed. The house had no running water, drainage or other public services. Much of that hadn't been thought of then.

This photo shows a number of large dogs. As far as can be remembered they were dogs bred and trained on his property for the Shackleton Antarctic Expedition in the early 1900's.

I can remember being taken as a young child to the farm for a day trip with my parents. We travelled by launch across the harbour and on arrival in Charteris Bay we transferred to a small row boat to arrive on the sandy beach front and the Anderson's home. A cup of tea prepared courtesy of a thermette fed by twigs and pine cones boiled the rain water collected from a large feeder tank. The tea tasted great never mind about the odd twig in the cup!. The freshly baked home made scones with raspberry jam and thick cream gathered from the Jersey cow minutes before were also delicious.

That's how things were in those days. We returned to Lyttelton later that afternoon having spent a lovely day far from the hustle and bustle of the port.

How very different Diamond Harbour and the adjacent bays are today. Today it's estimated the population of Diamond Harbour and bays is around 1500.

A day to remember ....indeed!

# Lyttelton Cenotaph

## Merchant Navy Connection

The 26 foot cenotaph was designed by a former vicar of Lyttelton, Rev Canon Coates and was unveiled on 25 April 1923. The base is made from Halswell blue stone, the structure is from locally quarried Rapaki stone, and the six panels are of Scotch granite.

The cenotaph's original location was on the corner of Oxford and London Street, but was deemed to be a traffic hazard and was subsequently moved to Simeon Quay in 1936. The memorial was badly damaged in the Canterbury earthquakes of 2010 and 2011 and was removed, restored and re-erected as the centrepiece in Albion Square, the new civic centre for Lyttelton on the corner of London and Canterbury Streets, opened in 2014.

Several thousand New Zealanders served in the Merchant Navy during the Second World War. These civilian volunteers sailed the ships that delivered troops, military equipment and vital cargoes of food, fuel and raw materials across the world's oceans. This work was so essential to the Allies' war effort that the Merchant Navy was effectively regarded as the fourth service alongside the army, navy and air force. This is reflected in the plaque on the Lyttelton Cenotaph which includes the Merchant Navy crest as shown below.

Work on the ships was tough, merchant seafarers often found themselves in the front lines of the war at sea. Many ships were torpedoed or bombed; survivors sometimes spent days or weeks in lifeboats before being rescued. More than 140 New Zealand merchant seafarers lost their lives, and a similar number were taken prisoner. No other group of New Zealand civilians faced such risks during wartime.

# CHRISTCHURCH to LITTLE RIVER RAIL TRAIL

## Hike It, Bike it, Like it..... Little River Rail Trail

Looking for something different to do one weekend? Did you know that the Little River Rail Trail is completed? This trail is designed for all users in mind, individuals, couples and families. It's been tailored so you can just do a small section, complete the trail in a day or over several days. You get the choices so that

you can plan your journey to meet your needs. "All eventualities have been thought of" said Trust Chair Don Babe.

From Lyttelton you don't even need a car to get you on your way. You can hop on the number 28 bus with/without your bike and head for the city centre. The trail officially begins from Cathedral Square. The first section goes to Marshs Road in Hornby. That section is 5.4km. If you haven't been to the city centre for some time this is a good opportunity to see what's been happening. Pass the newly refurbished Arts Centre, Canterbury Museum, the boat sheds and then you'll skirt past Hagley Park and then you can meander out through the south west suburbs along the motorway heading to Hornby.

The next section of the trail links you to Prebbleton. There is some on road trail in this section. Passing through Prebbleton there are opportunities for food and drink stops. Similarly as you make your way to Lincoln those opportunities exist there as well. From Lincoln you are in the countryside. You will amble through farming areas. En route see the Liffey Springs and the Halswell River. A side route exists to explore Tai Tapu. The trail then continues to Motukarara. Highlights along this route include the refurbished railway station and the Ahuriri Reserve. The next section of the trail gets you more into nature.

It includes Te Waihora (Lake Ellesmere), regenerating native wetlands, Attahua Reserve, the Kaituna

Lagoon and the Kaitorete Spit. As you continue to Birdlings Flat you will remain very close to the Lagoons and wetlands. Birdlings Flat to Little River is the last section of the trail. In this section of the journey you are beside Lake Forsyth. The end destination is Little River.

While it's recommended to have a mountain bike or a bike with wider tyres if you are going to cycle the trail, the off-road shingle sections are well graded and accessible for riders of all skill levels. Estimated cycle time for the entire single length journey is 5-7 hours. There are quite a few places to stay along the trail if you want to go at a more leisurely pace. Accommodation ranges from camping grounds, B&B's, Lodges, motels etc.

To use the trail is free but if you want a return shuttle from Little River, need to hire a bike or require food and drink you need to factor that into your budget. As mentioned there are facilities along the way, shops, accommodation, toilets. It's advisable to take your own water and some snacks. During spring and early summer there are lake flies en-route and if conditions are windy the track is very exposed.

The Little River Rail Trail is run as an Incorporated Charitable Trust. To help support the work of the Trust you can:

Support "The Great Rides App". Simply search for Great Rides on your Android or Apple device and download the app. The App is FREE! To access the Little River Trail, purchase the Trail for \$3.99 and have all the information while you ride. By purchasing the Little River Trail, 10% of each sale supports the Trail Trust in the upkeep of the Trail.

# New Bag Library For Lyttelton

Have you noticed the large decorated box outside the Harbour Co-op? Maybe you have already borrowed a bag from there when you forgot to take your own bags down? That's why it's there - for you to borrow a bag, and return it when you are next there with your own bag.

To herald in the spring, Xavi and Esther made the bag box, Ali Watersong altered it to fit, Juliet Neill decorated, and Sue-Ellen made and printed the bags, assisted by Juliet. It's been a big voluntary act on behalf of Plastic Shopping Bag Free Lyttelton to help rid Lyttelton of those pernicious plastic bags which choke up our oceans and kill our wildlife.

While 90% of our councils in NZ support the phasing out of plastic bags, the government inexplicably refuses to move on this issue. Nick Smith and his deputy are intransigent. Meanwhile many other countries around the world whose coastlines are thick with plastic, have already taken action and moved to ban plastic bags or put a levy on them and other plastics. Only one of our political parties plans to address this issue here, but we need to hear it from them all.

We would love to be made redundant by changing government policy. In the meanwhile, there are people in our community who have been working very hard to phase out plastic bags here, tirelessly sewn bags which have are sold at cost at the supermarket and in our farmers' market, and now have created the library. We know that people's awareness has increased considerably, and many people now take their own bags shopping. But some do understandably forget.

Now, if you forget, please feel free to borrow a bag

from our library. However, we do rely on you to bring it back in clean condition, as this service is for everyone, and we can't spend our lives replacing bags ourselves. Please respect and enjoy our donated facility. With your help this will work.

## New Fundraising Initiative Helping The Garage Sale

Our Community Garage Sale is amazing at helping groups throughout our community raise money for essentials they need. Over the past year the wider community has fundraised nearly \$8500 from sales during the year. Over the same period the Garage Sale team at Project Lyttelton has raised \$35,161. After their wages and all the costs of the centre were taken into account a further \$7000 went to support other activities within Project Lyttelton.

This year the team are seeking ways to make your shopping experience even better. In order to make that happen the Garage Sale team needs to make some more improvements to the shop. On the wish list at the moment is:

- Signage to show our location as we are tucked away and it can be hard find if you're not in the know
- Extra lighting so that you can see all the amazing items on offer
- An awning to provide shelter when the weather isn't great. Many of you will know that currently they need to close for really wet days
- A new display cabinet for those really special items that you generously donate
- A better cash register
- Heating, this would encourage more of you to try things on when the weather is cold

To make all this happen some extra fundraising is being raised. Ruth Targus and Michelle Parkes put their hands up to run a Fashion Show. This will be a joint fundraiser for Lyttelton Primary School and the Garage Sale. "We hope to raise quite a sum that can be put towards the Garage Sale upgrade" said Michelle and Ruth.

New Garage Sale Manager Frances Willems has also had a few ideas about increasing fundraising for all the shop upgrades that the team has identified. "I heard about an organization called Webfair and immediately went to see how they could help us", she said. Webfair is an online auction platform. Community organisations can join Webfair and then they encourage their supporters to gift items for an online auction.

"Initially I thought Webfair would mainly be an opportunity for the Garage Sale to be able to sell larger pieces of furniture. As you'd know we just don't have any space to store anything." The entire concept has now grown considerably. "I then found out that our supporters can also gift things to Webfair as well."

Webfair is available for any community organization to join. Once you have joined up you can use the site to raise money from donated new items, secondhand items, services and experiences. Proceeds earned are gifted to the charity you elect to support. All that Webfair asks in return is \$1 per auctioned item. There are genuine bargains to be found on Webfair with lots of items selling for only a couple of dollars so don't miss out.

The Garage Sale is in the middle of its first auction. Visit <https://webfair.co.nz/fairs/the-garage-sale-project-lyttelton/> On offer is a voucher to Freemans for a dinner, an old Singer sewing machine plus a host of other special items that have been donated to the Garage Sale. The auction is current until September 21st.

At this point if you would like to donate something to their auction visit [www.webfair.co.nz](http://www.webfair.co.nz). This is a great platform to support your community, get recognition for businesses in your area and just be socially responsible.

THE GARAGE SALE

This wonderful community resource is more than just a garage sale - every cent of the money goes directly to support community groups in the Lyttelton Harbour. The sales can be booked by a group as a fundraiser - they arrive with their own volunteers, manage the sale between 10am and 1pm on a Saturday, pack it away and keep all the proceeds for their cause. Groups that have run sales include: the Lyttelton Sea Scouts, Lyttelton Community House and Lyttelton Primary School

You never know what you will find at the Garage Sale. One Saturday a customer came to the counter very excited at a jacket she had found. The jacket was an original Dave Lublow. Dave was a former Lyttelton tailor who worked out of Civil and Naval all those years ago. The customer was an historian and she said in all the years she'd been in Lyttelton she had never seen an original Dave Lublow Jacket. The jacket has been passed to the museum for their collection. During the year many people benefit from the Garage Sale. This past year many surplus items have been shipped to Tonga to help people there. Many items have been given to community groups and schools. Many teachers find classroom resources at the garage sale. If the school is based around the Harbour the teacher gets the resources for free.

## Expect night-time traffic delays at the Lyttelton Tunnel

If you are driving at night through the Lyttelton Tunnel, expect occasional delays from later this month through until December 2018.

For a few nights each month, just one traffic lane in the tunnel will be open and on occasions both traffic lanes will need to be closed.

These traffic lane closures are required as work begins on a \$28.7 million fire protection upgrade inside the Lyttelton Tunnel, to increase the safety and resilience of this essential freight route for both Christchurch and Canterbury.

A project of this scale and complexity makes some traffic lane closures inside the tunnel unavoidable. They are needed so hundreds of water nozzles that are an integral part of the fire protection upgrade can be installed in the tunnel ceiling. To minimise disruptions for tunnel users, the work will be done at night when traffic flows are lightest.

### HOW TO PLAN FOR THESE DELAYS

- A three-monthly calendar for all planned night-time single lane closures and full closures will be available at [nzta.govt.nz/projects/lyttelton-tunnel/](http://nzta.govt.nz/projects/lyttelton-tunnel/)
- Lane closure details will be displayed on electronic message boards at the tunnel at least two days before they happen.
- Closures are planned to the best of the project team's ability, but may be subject to change.

- Allow extra time for tunnel travel on these dates.
- Emergency access through the tunnel will still be provided during all traffic lane closures.
- Most full tunnel traffic lane closures will be from March 2018.
- Real-time traffic information for the Lyttelton Tunnel area can be found at [www.tfc.govt.nz](http://www.tfc.govt.nz)

For more information about the Lyttelton Tunnel fire protection upgrade, go to [www.nzta.govt.nz/projects/lyttelton-tunnel/](http://www.nzta.govt.nz/projects/lyttelton-tunnel/). Find up-to-date information on road conditions, delays and closures at [www.nzta.govt.nz/traffic](http://www.nzta.govt.nz/traffic) and on the Transport Agency's official Twitter and Facebook pages [www.nzta.govt.nz/contact-us/connect-with-us/](http://www.nzta.govt.nz/contact-us/connect-with-us/).

# “Co-creating our common wealth society”

Martin Large is visiting Lyttelton. Martin, a publisher with Hawthorn Press, a former academic, a director of Stroud (UK) Common Wealth Ltd which enables co-op, cultural and social businesses e.g. community land trusts - is on a learning and lecture tour inquiring into 'common wealth' community initiatives, civic projects and social businesses.

Martin talks about co-creating our Social Future by asking *What society do we want and how do we get there?* We face a perfect storm of challenges such as global warming, rising inequality and human insecurity.

Martin sees a global 'blessed unrest' of people and movements co-creating the social future: biodynamic farms, commons such as Wikipedia, social businesses, schools and environmental and political change projects, Cities are linking up globally for exchange and learning. These green shoots form the emerging story of a 'Commonwealth Society'. Martin believes we are between 'stories' and that market fundamentalist breakdown has opened up the space for co-creating a new threefold 'commonwealth' and that this vision can help leaders in business, government and cultural organisations navigate the perfect storm.

The purpose of his visit to Lyttelton is twofold: one to see what we are doing, to learn what is happening here and the other is to spark the conversation into these matters in a public talk. 'The Social Future is breaking out everywhere: co-creating our commonwealth society.'

This will be held at the Board Room on Canterbury St Monday 16 October 6 -8 pm (light supper supplied).

Martin says...

*'What society do we want and how do we get there?' are burning questions we all face, if we are to leave a more equal, free, prosperous and earth caring world*

*for our grandchildren. It's up to all of us, as there is no wealth but life. I look forward to sharing burning questions, people's 'leadings' from the social future they see emerging.'*

## Orion - Lyttelton work successfully completed

Orion's latest work upgrading the power supply to Lyttelton has now been completed. Lyttelton, Corsair Bay and Cass Bay are now back on mains power.

Today's project upgrading the termination poles for the lines supplying the town went according to plan, and the generators installed in the Port and business area maintained a steady supply of power throughout the day.

There was one brief power outage around 4:40pm

when the generators were switched off, and the service returned to mains power.

Orion would like to thank the residents and businesses of Lyttelton for their support in managing their power consumption levels throughout the day.

## Diamond Harbour Ferry

Paul Milligan from Black Cat attended the recent Banks Peninsula Community Board meeting. He highlighted to Board Members that there was a health and safety risk for passengers embarking and disembarking from the wharf at Diamond Harbour. He felt now was the time for council to consider a floating pontoon just like the Port Company was doing for the new marina. Currently it is really difficult for elderly and people with prams etc to access the ferry especially when the weather is rough. Black Cat will be making a submission to the Long-Term Council Plan.

## Governors Bay House and Garden Tour

Governors Bay School PTA invite you to join our self-guided House and Garden Tour of "The Bay" on Sunday 26 November. We are excited to include: Ohinetahi Gardens, a garden of international significance owned by Sir Miles Warren; 'Waitahuna', the original Dyer Homestead; St Cuthbert's Church and The Old Schoolhouse, both recently restored and many other private homes and gardens that will surprise and delight.

Treat yourself to a fabulous day in Governors Bay. Meander through gorgeous gardens, discover the hidden secrets behind the trees off the main road and be awed by the ever changing views

Your ticket price supports the enhancement of the Governors Bay School playground. The playground is an educational, recreational and social hub of the Governors Bay community benefiting our students, the wider community and visitors to the area.

Boxed lunch options are available when purchasing tickets.

# The Breeze Walking Festival

CHRISTCHURCH   
**THE BREEZE**

**active**  
CANTERBURY

Christchurch  
City Council 

Here are some exciting dates for upcoming events at the club, and a really important update on our latest rebuild plans.

For those of you who joined us at the AGM last month will have heard the update from Steve and the committee on where we are in our rebuild plans, and what's next for the Top Club.

To secure the future of the club, a change of plan was presented to the members, and we're really excited to update you that we are moving things on apace with this alternative plan. We are working on some drawings that we can publish for you all, and hope to begin the changes really soon. Here's a small summary of the proposal:

- Creating a brand new entrance on the Dublin Street corner
- Creating our 'Sports Bar' to be located in the function hall
- Moving the TAB into the Sports Bar (along with pool tables)
- Making the Pokie room into a more permanent structure
- Brand new gaming machines
- Full redesign and rebuild of the bar itself
- Lower the ceilings

- Remove and replace our heating units
- Encourage food service through the atrium to take advantage of the views
- An entire redecoration
- Upgrade of the gents
- Painting the outside of the entire building
- Working with CCC to fix the corner wall (and get our parking spaces back)

Yes this does mean we are moving away from the original plan, but we feel this decision had to be made to ensure the long term success of our bar and restaurant.

We will absolutely keep all our members updated on our progress, but I'm sure you'll all appreciate something happening, and we are really excited by the changes we are discussing as a rebuild committee.

In the meantime, we hope to see you all soon to enjoy the amazing hospitality of our amazing team - whether it's at our weekly Housie nights each Tuesday, the members cash draw on Thursday nights, enjoying the live sports as we begin the Spring and Summer months, or just to pop in and enjoy a drink with your friends.

# biketober

Christchurch, 1-31 October

Over 50 events being organised around all things bicycle

That's a lot of great reasons to hop on your bike this spring!

## What is Biketober?

Welcome to Biketober (a fusion of bike + October), a celebration of cycling. Conceived by volunteers and cycling advocates, it's a way of bringing together all things bike-related in Christchurch this October. We'd like to show you the many opportunities to get involved in cycling, in whatever way you choose.

## What's happening?

The Biketober team (with support from Christchurch City Council and NZTA) have developed a diverse programme of bicycling events. There are guided rides (on- and off-road), social activities (pedal-powered cinema, cargo bike rally), go-by-bike breakfasts, bike-repair workshops and more. Most events are free.

Some events happen anyway, but we think it's worth giving them a plug; some of them are Biketober 'specials', organised by volunteer groups; and some are bigger events we're linking up with, like Avon Ōtākaro's family event 'Meet in the Middle', the BECA Heritage week and the NZ Bike Expo. There's a Biketober Passport in the making. You can get your passport stamped at 16 participating venues, then drop it in at the Expo for a chance to win some great prizes.

## Who's it for?

Biketober is for anyone interested in cycling, whatever your bike or your purpose. You might be new to cycling, looking for advice and ways to get going. Perhaps you're a cycle commuter, a family of cyclists, or a cycle enthusiast. Maybe you'd like to meet others who just enjoy being out and about by bike.

## Find out more

Check out the programme and updates on our website: [biketober.nz/christchurch](http://biketober.nz/christchurch) (When you're there, you might spot that we share our site with Auckland. Yep, they had the same idea, so we decided to put a national spin on it and share the site.)

## Submit an event

Whether big or small, if you're running an event that has bikes in it, we'd like to hear from you. Hop on to our website and submit your event details from the main page.

## Help out!

A great support crew can make an event run seamlessly. If you can spare a couple of hours (or more, or less) to help with a ride, distribute some promotional material, or you're not sure how to help but know you'd like to, get in touch via the link on our website or drop an email to [biketober@gmail.com](mailto:biketober@gmail.com).
